Chapter 37 is starting off the year with a flurry of activity as the snow melts and the weather is more cooperative. They are resuming work and will soon complete the final construction to their hanger with the addition of a bathroom and sewer connections. This addition to their facility will enable them to host outside groups such as the **International Stinson Club** which was here during the Great Monsoon of '08. Project work continues in the hangar with the re-assembly of Harold Neumann's Monocoupe. This project is being done for the EAA Museum in Oshkosh, Wisconsin and we hope to have our portion of the project done before OSH this year.

We are a group with lots of interests and activities so why not come on over and join us? Friday Movie Nights for the family and more! We hope to see you.....
